

Please join us for the following C3GIS Webinars:

C3GIS is pleased to announce four upcoming geospatial webinars targeted to Educators and Staff at California Community Colleges and High Schools. Each webinar is one hour long and will include time for questions. Please join us for these opportunities to hear about what is happening at California Community Colleges in Geospatial Technologies.

To sign up, send an email to Chris Lewis (chris@c3gis.net) or Ann Johnson (ann@c3gis.net) and let us know which webinars you want to participate in and we will send you the login information.

October 1 – 1:30-2:30 PST: Developing a Geospatial Curriculum

By popular demand, John Johnson, from Mesa College in San Diego, will talk about the GIS Technician DACUM (the process of working with industry to develop a curriculum) developed for Mesa College. <http://geoinfo.sdsu.edu/hightech/dacum.htm>

October 14 – 2:30-3:30 PST: Mapping Your Campus

Mono Simeone, San Francisco City College will give this timely presentation on mapping your campus using GIS from his example at San Francisco City College.

November 14 – 3:00-4:00 PST: GIS Day! Careers in Geospatial Technologies

Ann Johnson and Chris Lewis will discuss career opportunities and resources for counselors, educators and students interested in Geospatial careers.

February – TBA: Best Practices for Geospatial Program Development – Survey Results

Ann Johnson and Chris Lewis will talk about marketing, lab setup, curriculum, certificate programs, textbooks, internships, articulation and other topics of importance for developing a new program or sustaining an existing program. This will include some of the results of a recently completed survey of California Community College faculty.
